

PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate (B.Tech, 2027) with hands-on experience building full-stack web applications using the MERN stack and applied machine learning with Python. IBM-certified in Machine Learning and trained in industry-standard development workflows. Actively seeking entry-level roles in **Software Engineering** or **Data Science / AI** where I can contribute to real-world product development and analytical solutions.

EDUCATION

Bachelor of Technology — Computer Science & Engineering

Integral University, Lucknow | Expected Graduation: 2027

TECHNICAL SKILLS

Programming Languages: Python, SQL

Web Technologies: MongoDB, Express.js, React.js, Node.js (MERN Stack), HTML, CSS, JavaScript

Tools & Platforms: Git, GitHub, VS Code

Domains: Machine Learning, Full-Stack Development, Data Analysis

PROJECTS

Social Media Web Application

Full-Stack MERN Project

- Designed and developed a full-stack social media platform using MongoDB, Express.js, React.js, and Node.js (MERN stack), enabling core social interactions such as user authentication, posts, and real-time feeds.
- Implemented RESTful APIs with Express.js and Node.js for backend services, and React.js for a responsive, component-based front-end interface.
- Used MongoDB for flexible, schema-less data storage supporting user profiles, posts, and relationships.
- Managed version control and collaborative development workflows using Git and GitHub.

CERTIFICATIONS & TRAINING

IBM Machine Learning with Python — Global Certification

IBM Global Certification Program | 30-Day Internship + Certification

- Completed an intensive 30-day program covering supervised/unsupervised learning, model evaluation, and Python-based ML workflows using scikit-learn and IBM Watson tools.

Six-Week Offline Training — MERN Stack Development

Manyversity Academics, Lucknow | Hands-on Industry Training

- Completed structured, instructor-led training on MongoDB, Express.js, React.js, and Node.js, culminating in the Social Media Web Application project.

KEY COMPETENCIES

Full-Stack Web Development • Machine Learning • RESTful API Design • Database Management (SQL & NoSQL) • Version Control (Git) • Problem-Solving • Agile Development Practices
