Lucknow, India | +91-9140987659 | sabrinshabbir@gmail.com | linkedin.com/in/sabrinshabbir

PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science undergraduate (Expected 2027) with IBM-certified Machine Learning with Python expertise and full-stack MERN Stack development experience. Proficient in SQL, data analysis, Python, and data management. Seeking an entry-level **Data Analyst** role to deliver actionable business insights.

SKILLS

Core Data Skills: SQL, Data Analysis, Data Visualization, Data Cleaning & Validation, KPI Definition

Tools & Platforms: Python, Excel, Git, GitHub, VS Code, MongoDB (NoSQL), IBM Watson

Web Technologies: React.js, Node.js, Express.js, HTML, CSS, JavaScript (MERN Stack)

Domains: Machine Learning, Database Management (SQL & NoSQL), ETL Concepts, Full-Stack Development

PROJECTS

Social Media Web Application | *Full-Stack MERN Stack Project*

- Designed and built a full-stack platform using MongoDB, Express.js, React.js, and Node.js — managing user profiles, posts, and social connections across multiple data sources.
- Wrote and optimized NoSQL queries in MongoDB for data retrieval, storage management, and user activity reporting; cleaned and validated data inputs to ensure integrity.
- Built RESTful APIs for all backend services and managed full lifecycle version control with Git & GitHub following Agile practices.

EDUCATION

Bachelor of Technology — Computer Science & Engineering

Integral University, Lucknow | Expected: 2027

CERTIFICATIONS & TRAINING

IBM Machine Learning with Python — Global Certification

IBM Global Certification Program | 30-Day Internship + Certification

- Intensive 30-day program: supervised & unsupervised learning, model evaluation, ML pipelines using Python and IBM Watson — covering Machine Learning Fundamentals for Data Analyst roles.

Six-Week Offline Training — MERN Stack Development

Manyversity Academics, Lucknow | Industry Training Program

- Hands-on training on MongoDB, Express.js, React.js, and Node.js; applied ETL-like data management workflows directly in the Social Media Web Application project.

KEY COMPETENCIES

Full-Stack Development • Machine Learning Fundamentals • RESTful API Design • Database Management (SQL & NoSQL) • Data Analysis & Visualization • Data Cleaning & Validation • ETL Concepts • Version Control (Git) • Problem Solving • Agile Practices • KPI Definition & Reporting
